

Disco Difference Party Feedback

When Paula told me she would get the children up dancing I thought 25 boys and just 7 girls would be a tall order for anyone.

Paula's enthusiasm, however, is infectious and all children joined in and enjoyed my son's Disco Difference birthday party.

The party was a great success. Paula is a natural with the children and the children love her. She said at the end of the party 'she is lucky she does a job she enjoys'.....I would correct that....we are lucky she does the job she does....she gave us a wonderful party to look back on. Paula is 'FunShine' in every sense of the word.

It is a joy to watch you with the children. Our daughter's party truly was a Disco with a Difference. Fun was had by all and I would certainly recommend you.

Well another year had passed and Paula stepped in to the breach once more and took charge of my little cherub's birthday extravaganza. My little Katie was 7 and she wanted a disco for her party and after last years success, we decided that FunShine had to be the way forward to ensure a successful event.

Paula turned up in plenty of time again and was immediately unloading the mountain of disco equipment and plethora of entertainment essentials. The Disco was set up with a military precision and even whilst doing that, she made time to entertain the early arrivals with funny dances and generally created a fun atmosphere from the off. Her energy levels know no bounds as she cavorted like a teenager with the young party goers and I was worn out just watching her and her young charges as they went through some great routines. All the kids were made to feel special and it was such a great day for them all that even back at school, the Mum's and Dad's were commenting on how

Disco Difference Party Feedback

great the party was because the kids could stop telling them about all they had done and won!

It was a fitting testament to all the hard work that Paula puts in, and I am glad to have used her for the second year running and would be happy to recommend her to anyone wanting a great party for their kids. She is a very special lady with a genuine passion for her job and that comes across in the quality of the service she provides.

Thanks Paula, you are a star!

DISCO WITH A DIFFERENCE

Words are not enough to express Disco with a Difference - Our girls wanted a disco for there 6th birthday and we got more than that -

Paula arrived, after doing parties previously that day, and she still had a lot of go left in her. She set up and the excitement and buzz had started. When our girls arrived the bubbles were blowing, fog machine on and the music and lights were flashing - the guests arrived and wow there faces were a picture. Paula had set up a table to have tattoos done upon arrival and all the children loved that, something different and special. It was non stop entertainment, music, games, and we have to say it was such great fun we had to join in as well. The children all joined in, there was no child not dancing or having a go at the music and games.

The whole evening flowed, it was a shame we had to stop for something to eat, but a quick pit stop for food and drinks to refuel and off we went again, as the children were eager to see what was next.

We highly recommend this for any child's birthday, and if you want a good boogie and want to relive your party nights and show your child how's it done then book DISCO WITH A DIFFERENCE!!!!

After a recommendation, I booked Paula, as Pirate Pete, for our daughter's 7th birthday in Sept 2005. This was the first time we had used a "party entertainer" so were unsure what to expect. Paula was 100% professional, helpful and enthusiastic and fun from the word go. She seems to have thought of everything to ensure the success of each party. We can give nothing but praise for her and it made such a difference to the enjoyment of our child's

Disco Difference Party Feedback

party. Whilst ensuring that the party child felt special she ensured that everyone was included and happy throughout.

The following year, I confidently booked Paula's "Disco with a Difference Party" for our daughter's 8th birthday. Again Paula could not be faulted. The atmosphere was amazing and it was impossible for the children (and adults) not to be infected with her incredible enthusiasm. Unknown to Paula, one parent had worried that her son would not join in as he was shy, but, with her encouragement, he took the place by storm with his air guitar impression and won the spot prize! She has so many great ideas that there is never a dull moment. Many parents commented afterwards that it was truly the best party their children had ever been to. I know of at least two who have since booked the same party.

The name "Funshine" sums up Paula. There is no doubt that she just has the knack for party entertaining! We have no hesitation in thoroughly recommending her.

A disco Party, that was all my soon to be 7 year old daughter wanted, so the timing was perfect as I heard from Paula, (who we had used last year for a Fairy Fern party) as she introduced her new venture - The Disco Party - it sounded great and we were booked.

As before, all the prior helpful hints and tips from Paula were invaluable, priding myself on thinking of everything there was lots more to think on from Paula's guide.

The day dawned for the party to be held in a local club hall, Paula was there with lots of time to set-up, car loaded to the roof with fun games and equipment, she made Kayleigh feel special right from the outset and as the children arrived they soon were kept entertained. They loved the glitter tattoos, optional if they want them..

The dancing got underway and those who were in the front of it had a fantastic time bopping away to some great music under the disco lights, smoke (again optional) and under the instructions from Paula as she was out in the thick of it and not hiding behind the music deck. I was worried about those that did not want to dance, but did not need to be, the stacking bricks (garden jenga) kept them happy and Paula kept bringing them back into the party with all the others for great games and competitions. Those 'big children' that stayed, including Kayleigh's 76 years young Nana, all joined in (including a Dad doing the Limbo) - as a family we were able to enjoy the party as well which made the party all the better.

Disco Difference Party Feedback

At the end of the party, children departed very happy, blow-up Guitars in hands. They all said they had, had a fantastic time (even those who were not into the music) and Kayleigh ... well she wants another Disco party with Paula again next year as do all her friends. All throughout Kayleigh was made to feel special but all the other children were made to feel included too with certificates and medals for various activities and as for Mum and Nana? - we had a fantastic time too which is what it is all about - thanks so much Paula another brilliant party thanks for all your hard work and commitment. See you again next year.
